Taking a Case Study Approach to Using Data for Patient Safety Improvement Efforts.

Learning Objectives:

1. Explore a fall risk reduction case study that identifies how to use data for fall risk reduction efforts.
2. Describe how to create a Data-Information-Knowledge-Wisdom (DIKW) framework table.
3. Discuss how to conduct a patient safety related case study in your organization.

If you have questions about the webinar or registration, contact Regina Nailon at: regina.nailon@unmc.edu or phone: 402-559-8946.

This program has been approved for 1.0 contact hours. Continuing Education Contact Hours awarded by Iowa Western Community College, Iowa Board of Nursing Provider #6.
